

FEDERAL/DOD

Women-Owned Small Business (WOSB)

PRIMARY NAICS 541620 & 541690

Firm Overview

Established in 2003, Aria Environmental, Inc. (AE) is a small woman-owned corporation that provides environmental, industrial hygiene, and safety consulting and EPA/OSHA compliance training to federal, state, and local governmental agencies and the private sector. Led by a Doctor in Public Health, our staff has over 100 years of combined experience and maintains current relevant certifications in industrial hygiene, asbestos and lead-based paint services, hazardous waste operations and emergency response, drinking water, storm water management and sediment/erosion control. These certifications along with our education, experience and knowledge of **EM-385-1-1**, enhance our ability to meet the challenges that arise during building construction, renovation or demolition projects and in finding efficient and effective solutions to environmental, health and safety issues.

Agency/Installation Experience

Architect of the Capitol
 Armed Forces Institute of Pathology
 Department of Homeland Security
 Department of Veterans Affairs
 Federal Aviation Administration
 National Institutes of Health
 NAVFAC Washington
 Carderock
 Indian Head
 Naval Research Laboratory
 Patuxent River NAS
 USMC Quantico
 US Naval Academy
 US Naval Observatory
 USACE Baltimore
 Aberdeen Proving Ground
 Ft. Meade
 Ft. Detrick
 USACE Huntsville
 USACE Kansas City
 United States Postal Service
 National Guard Bureau
 Walter Reed National Military Medical Center

Services

Strategic environmental management planning
 Multi-media environmental compliance audits
 Phase I/II site assessments and investigations
 Asbestos/lead/hazardous materials identification, management and abatement design
 Industrial hygiene program development, evaluations and exposure assessment
 Hazardous waste management
 Pollution prevention program support
 Environmental, safety and health training
 Laboratory decommissioning/design
 Indoor air quality investigations
 LEED pre-occupancy air monitoring
 Subsurface soil and ground water investigations
 EPA/OSHA compliance support
 Compliance training

Current Federal Contracts

NIH/USACE Baltimore District, Multiple Award Environmental Services (MAES) for Phase 2 Environmental Site Assessment Project for four Laboratories in Bethesda and Kensington, MD (W912DR-12-D-0014); SUB to AECOM — recently awarded, hazardous materials surveys, phase II environmental site assessment, laboratory decommissioning

Phase II Environmental Site Assessment/Laboratory Decommissioning Study, USACE, Kansas City District, St. Louis, MO; SUB to TerranearPMC, LLC — recently awarded, phase II environmental site assessment, laboratory decommissioning

NAVFAC, Washington IDIQ for Civil & Structural Engineering Services (N40080-08-R-0050); SUB to WBCM – hazardous materials surveys, subsurface investigations, design, specification development and cost estimates, fast-track RFP

Department of Homeland Security IDIQ (HSFLBP-13-D-00001); SUB to Global Engineering Solutions — hazardous materials identification and testing, specification development, construction documents and construction administration. *Project details are confidential.*

USACE Huntsville, IDC, Army Medical Facilities AE Services (W912DY-13-D-001); SUB to Global Engineering Solutions — hazardous materials identification and testing, specification development, construction documents and construction administration for pathology and histology laboratories at various installations.

Department of Veterans Affairs, Maryland Health Care System and VAMC Washington DC (VA245-14-D-0008) — campus-wide hazardous materials identification and testing, specification development, construction documents and construction administration for utility plants, housing and healthcare-related facilities.
