EXPERIENCE:

4/2004 – Present **Aria Environmental, Inc., Sykesville, MD**
Senior Industrial Hygienist/Environmental Project Manager

Mr. Sciorilli is a hazardous materials specialist in the built environment. His work has included the evaluation of terrestrial structures as well as Naval vessels and aircraft.

- ◆ For two years, Mr. Sciorilli served as the Environmental, Health and Safety Compliance Officer/Program Manager during the decommissioning of 7 ghost fleet vessels under the Department of the Navy and US Department of Transportation, Ship Dismantling Program. Provided hazardous materials sampling (e.g., asbestos, heavy metals, PCBs, petroleum, oils and lubricants in ballast water and materials of ship construction), interpretation, hazardous materials abatement project monitoring and safety training. He documented all activities and coordinated record keeping and document control between US DOT MARAD Environmental Program Manager and Maryland Department of the Environment.
- ◆ Served as the lead investigator supporting numerous Architectural and Engineering (A&E) firms in the identification of hazardous materials which may potentially impact renovation or demolition activities.
- ◆ Provided asbestos program and industrial hygiene management services for large and small companies including a Fortune 500 defense contractor.
- ◆ Conducted personal air sampling for chemical exposures and in a biological laboratory setting including monitoring exposure to ensure compliance with applicable regulation.
- ◆ Developed Personal Protective Equipment Plan and Formaldehyde Management Plan for a major hospital in the Baltimore area.
- ◆ Conducted pre-demolition asbestos and lead-based paint survey large industrial facility. Conducted comprehensive asbestos inspection, lead-based paint survey and technical report writing.
